

Together
we will end
homelessness

Together we will end homelessness

Homelessness is a devastating experience. It leaves people isolated and vulnerable. We believe that no one should be homeless in Britain today.

Did you know:

- There are currently **nearly 160,000 homeless households** in Britain
- If current policies continue, rough sleeping is expected to **rise by 76 per cent** in the next decade
- The **average age of death** for a homeless person is **47**
- Someone sleeping rough is **17 times more likely** than average to be a **victim of violence**

Homelessness is not inevitable.
We know that, together, we will end it.

Play your part to end homelessness.
